Mira Vale

Operations Analyst

mira.vale@example.org | https://example.org/mira-vale

Fictional example. All people, organizations, career details, and metrics are for demonstration.

Profile

Operations analyst who turns recurring service problems into clear workflows and useful reporting. Experienced in queue analysis, process documentation, and cross-team delivery. Connects customer feedback with operational data to prioritize practical improvements and measure results.

Core skills

Process mapping · Service reporting · Root-cause analysis · Stakeholder coordination
Microsoft Excel · Google Sheets · SQL · Jira

Experience

Velunara Systems | Operations Analyst | Apr 2023 - Jun 2026

Fictional software company; supported service operations across three product teams.

- Redesigned intake and triage for 1,200 monthly requests, reducing median assignment time from 18 hours to 7 hours over two quarters.
- Built a weekly SQL and Excel report that exposed repeat failure patterns; helped teams reduce reopened cases from 14% to 9%.
- Coordinated a six-week pilot of revised escalation rules, documented exceptions, and trained 24 colleagues before rollout.
- Maintained an operating guide with named owners and review dates, cutting outdated procedures from 31 to 6 in one audit cycle.

Orvessa Services | Operations Coordinator | Aug 2020 - Mar 2023

Fictional subscription service; managed reporting and handoffs for a 12-person team.

- Standardized daily handoff notes and a shared issue register, reducing missed follow-ups from 22 to 8 per month.
- Reconciled billing exceptions in Google Sheets and introduced a review checklist that reduced rework by 27%.
- Prepared monthly service reviews that connected volume, response times, and customer feedback to three agreed improvement priorities.

Education

Example Learning Institute (fictional) | BA, Applied Social Studies | 2016 - 2020

Capstone: a fictional public-service queue study combining interviews and descriptive statistics.
